

British Journal of Pharmacology

Call for Papers: “2016 Symposia Sponsorship: EMBO Conference: WNT Meeting 2016” Themed Issue

British Journal of Pharmacology will be publishing a special ‘Themed Issue’ entitled ‘**2016 Symposia Sponsorship: EMBO Conference: WNT Meeting 2016**’ with Gunnar Schulte (Karolinska Institutet, SE) and Vitezslav Bryja (Masaryk University, CZ) as Guest Editors.

The issue will – among others - include authoritative state of the art review articles from

- Else Driehuis and Hans Clevers. “WNT signaling events at the membrane”
- Dario Zimmerli, Konrad Basler and Vanessa Ho, “Small molecule inhibitors of the Wnt pathway: Targeting the ligands versus inhibition of nuclear factors”
- Marian Waterman “Targeting the LEF/TCF-beta-catenin complex pharmacologically”
- Elisabeth Vincan, Toby Phesse, Dusty Flanagan and Clare Austin “Wnt signalling and gastric cancer”
- Vitezslav Bryja and Pavlina Janovska “Wnt signaling in chronic lymphocytic leukemia and other lymphomas”
-and more

Deadline for submissions is 1st March 2017.

Guidelines for Authors of the “2016 Symposia Sponsorship: EMBO Conference: WNT Meeting 2016” Themed Issue

Please see the full BJP Guidelines for authors [here](#). Please be aware that submitting an article to the themed issue does not guarantee acceptance. BJP has strict statistical, reporting and ethical standards and **all** papers undergo a rigorous and consistent single blind peer review process.

- (1) The BJP Themed issue/Reviews Senior Editor, Professor G Cirino, and the Guest Editors would be happy to consider for publication original Articles containing only new and original findings.

Aims and Scope of the Themed Issue

The BJP special issue presents a splendid opportunity to position the WNT field in the area of pharmacology pointing at the potential therapeutic relevance of the WNT signalling system, to discuss and pinpoint targetable mechanisms, to summarize recent efforts in drug development and to bridge disciplines of developmental biology, oncology, cell biology, molecular biology, pharmacology and therapeutics.

Thank you for your interest in BJP. We wish you all the best with your submission and we look forward to your contribution.
